

List of Books Recently Acquired by the University of Costa Rica in the  
Subject of Electrical Engineering Since January 2009 Until  
February 26<sup>th</sup>, 2010

Title: Control of Unstable Systems  
Author: R. Padma Sree, M. Chidambaram  
Edition: 2006  
Publisher: Alpha Science International Limited  
ISBN: 978-1842652879

Title: Electricity Distribution Network Design  
Authors: Erkki Lakervi, Edward Holmes  
Publisher: IEE Press  
Edition: 2003  
ISBN: 978-0-86341-309-4

Title: Alternative Energy Systems: Design and Analysis with Induction Generators  
Authors: M. G. Simoes, Felix A. Farret  
Publisher: CRC Press  
Edition: segunda, 2007  
ISBN-13: 978-1420055320  
ISBN-10: 1420055321

Title: NFPA's Residential Wiring  
Author: H. Brooke Stauffer  
Publisher: Jones and Bartlett Publishers  
Edition: tercera  
ISBN-13: 978-0-7637-5260-6  
ISBN-10: 0-7637-5260-6

Title: Stallcup's Electrical Design  
Author: James G. Stallcup  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5253-8  
ISBN-10: 0-7637-5253-3

Title: User's Guide to the National Electrical Code  
Author: H. Brooke Stauffer  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5261-3  
ISBN-10: 0-7637-5261-4

Title: Electrical Installations in Hazardous Locations  
Authors: Peter Schram, Mark W. Earley, Robert J. Benedetti  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5249-1  
ISBN-10: 0-7637-5249-5

Title: Electrical Inspection Manual  
Author: Noel Williams  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5430-3

Title: Network Cabling Illuminated  
Authors: Robert Shimonski, Richard Steiner, Sean Sheedy  
Publisher: Jones and Bartlett Publishers  
Edition: 2006  
ISBN-13: 978-0-7637-3393-3  
ISBN-10: 0-7637-3393-8

Title: Stallcup's Generator, Transformer, Motor and Compressor  
Author: James G. Stallcup  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5255-2  
ISBN-10: 0-7637-5255-X

Title: Stallcup's Electrical Equipment Maintenance Simplified  
Author: James G. Stallcup  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5115-9  
ISBN-10: 0-7637-5115-4

Title: The Switching Function: Analysis of Power Electronic Circuits  
Author: Christos Marouchos  
Publisher: IEE  
Edition: 2006  
ISBN: 978-0-86341-351-3

Title: Short Circuit Currents  
Author: Jürgen Schlabbach  
Publisher: IEE  
Edition: 2005  
ISBN: 978-0-86341-514-2

Title: Overvoltage Protection of Low-Voltage Systems  
Author: Peter Hasse  
Publisher: IEE  
Edition: Second, 2000  
ISBN: 978-0-85296-781-2

Title: Protection of Electricity Distribution Networks  
Author: Juan Gers, Edward Holmes  
Publisher: IEE  
Edition: 2004  
ISBN: 978-0-86341-537-1

Title: Tidal Power  
Author: Clive Baker  
Publisher: IEE  
Edition: 1991  
ISBN: 978-0-86341-189-2

Title: Propagation of Radiowaves  
Author: Les Barclay, editor  
Publisher: IEE (Institution of Electrical and Electronics Engineers)  
Edition: Second, 2003  
ISBN: 978-0-85296-102-5

Title: Electric Fuses  
Authors: Arthur Wright, Gordon Newbery  
Publisher: IEE  
Edition: Third, 2004  
ISBN: 978-0-86341-399-5

Title: Theory and Design of Microwave Filters  
Author: Ian Hunter  
Publisher: IET (Institution of Engineering and Technology)  
Edition: 2001  
ISBN: 978-0-85296-777-5

Title: Wind Power Integration: Connection and System Operational Aspects  
Authors: Brendan Fox, et. al.  
Publisher: IET  
Edition: 2007  
ISBN: 978-0-86341-449-7

Title: Distribution Switchgear  
Author: Stan Stewart  
Publisher: IEE  
Edition: 2004  
ISBN: 978-0-85296-107-0

Title: The Lightning Flash  
Author: Vernon Cooray, editor  
Publisher: IEE  
Edition: 2003  
ISBN: 978-0-85296-780-5

Title: National Electrical Code 2008  
Author: National Fire Protection Association  
Publisher: Delmar Cengage Learning  
Edition: 2007  
ISBN-13: 978-0877657903  
ISBN-10: 0877657904

Title: Principles of Computer Hardware  
Author: Alan Clements  
Publisher: Oxford University Press  
Edition: Fourth, 2006  
ISBN-13: 978-0199273133  
ISBN-10: 0199273138

Title: Stallcup's Electrical Grounding and Bonding Simplified  
Author: James G. Stallcup  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5254-5  
ISBN-10: 0-7637-5254-1

Title: Stallcup's One and Two Family Dwellings  
Author: James G. Stallcup  
Publisher: Jones and Bartlett Publishers  
Edition: 2008  
ISBN-13: 978-0-7637-5258-3  
ISBN-10: 0-7637-5258-4
